

JVC Brings True Wireless Convenience To Popular Gummy Headphone Series

JVC brings true wireless convenience to its popular Gummy headphone series with the launch of the new HA-A7T earbuds.

These new earbuds deliver on the core Gummy attributes of value, comfort and convenience. They offer up to 15 hours of wireless use, are rain proof (IPX4), feature a hands-free built-in mic/remote and volume control via Bluetooth 5.0. They are also voice assistant compatible, so they can be easily used with the variety of intelligent virtual assistants now widely in use. For added convenience they automatically power on and connect to your device when removed from the case.

PRESS RELEASE

The HA-A7T Gummy True Wireless earbuds are available in five colours – olive black, coconut white, soda blue, mint green and peach pink – and come with a colour-matching compact charging case. Three ear pieces are included (small/medium/large) as is a Micro USB charging cable.
