# Comfort and Excitement for the Road Ahead

The latest innovations to interface your smartphone with your car are onboard so you can bring your favorite apps into your driving experience, in comfort and safety. View content on a big screen, sensitive to your touch and your wishes. Enjoy quality sound, and customise it to reflect your lifestyle. Tune-up your car, with JVC.

**KW-V820BT**  
6.8-inch Clear Resistive Touch Panel with DVD/CD/USB Receiver and Built-in Bluetooth® Wireless Technology

- High-Resolution Audio
- Supports Apple Music

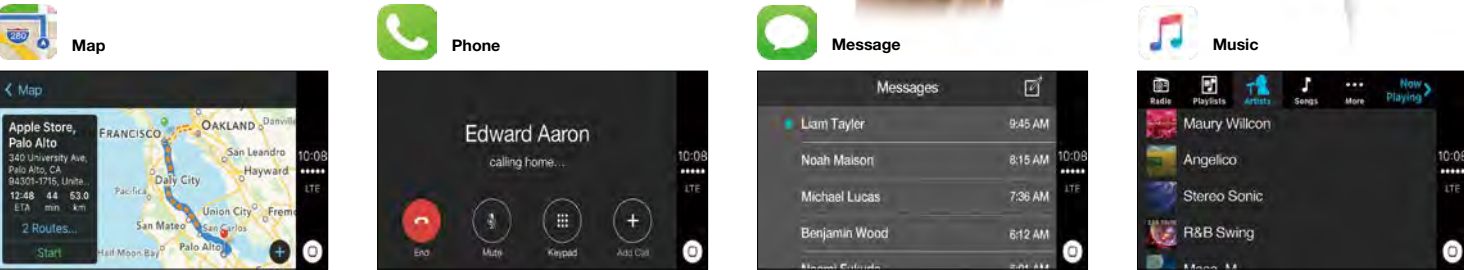

\*iPhone only

## Apple CarPlay

CarPlay takes the things you want to do with your iPhone and puts them on the big screen. Things get even better with a JVC multimedia receiver — simply talk to Siri or touch the receiver’s display and get directions from Apple Map, make phone calls, listen to voicemail, send and receive texts, and listen to music all in a way that allows you to stay focused on the road.

Note: Apple CarPlay is available with iPhone 6 Plus, iPhone 6, iPhone 6s, iPhone 6s Plus, iPhone 5s, iPhone 5c or iPhone 5 with iOS 7.1 or newer

All models are compatible with iPod/iPhone. **Made for iPod iPhone**

**KW-V620BT**  
6.8-inch Clear Resistive Touch Panel with DVD/CD/USB Receiver, HDMI Input and Built-in Bluetooth® Wireless Technology

\*iPhone only

## 6.8" Clear Resistive Touch Control (6.2" WVGA Monitor)

[KW-V820BT/V620BT/V320BT]

### Larger Display with Minimalist Design

JVC's new multimedia models with 6.8" Clear Resistive Touch Panel features a dedicated Touch Control Key area and a high-resolution WVGA display. Sleek, minimalist design turns the entire face of the unit black when the ignition is turned off, so it meshes seamlessly with the interior. Turn it back on and the high-visibility 6.8" display reappears like magic with images you'll want to see.

WVGA Display

Face plate fades into the shadows when ignition is turned off.

Power ON

Power OFF

### Clear Resistive Touch Panel with Easy-to-see GUI

The clear resistive touch panel with high-transparency and high-luminance makes icons easy to see and functions easy to use. Enjoy intuitive operation thanks to the easy-to-use GUI design with large key layout.

Please visit the JVC Support Site for further information including firmware update.

Supports Apple Music

Music Playback via USB

2 Phones Full-Time Connection

BT Automatic Pairing

Siri CALL Eyes Free

USB 1.5A Charging

High Voltage 3 pre-out

Rear View Camera Ready

13-Band Graphic EQ

Steering Remote Ready

Remote Control Ready

**iPhone®/Android™ Bluetooth Automatic Pairing**

Just connect your iPhone or Android device\* via USB and the automatic Bluetooth pairing function will work to complete the pairing. No complicated manual procedure to worry about.

\*JVC Music Play application is required for Android. iPhone only for KW-V820BT/V620BT/V215DBT.

**Bluetooth Voice Recognition**

**Siri Eyes Free Mode for iPod/iPhone**  
Allows access to the Siri voice-activated personal assistant while keeping your hands on the steering wheel and eyes on the road. No need to touch your iPhone to play back stored music or make calls to registered numbers.

**Improved Sound Quality with HFP 1.6 Wideband Speech**

Improved sound quality thanks to HD Voice contributes to a higher level of voice recognition accuracy.

**Bluetooth AVRCP1.5 for Versatile Song Selection**

In addition to repeat and random playback of music files, you can also easily search for songs using the browsing function. Just look for and choose the song you want to hear from the folder name and song name lists.

**Android™ Music Playback via USB (AUTO MODE/AUDIO MODE)**

Simply connect your Android smartphone or tablet to the receiver via USB and enjoy a totally "plug and play" music playback solution. The Android Open Accessory Protocol (AOA2) is supported so absolutely no preparation or set-up is necessary – just plug it in and it's ready to play audio files stored on your Android device in what's called "AUDIO MODE". Or, by installing the free JVC Music Play app available on Google Play, you'll be able to access "AUTO MODE" for added functionality including Folder Up & Down, and Search Artist/Album/Song.

Made for iPod iPhone

All models are compatible with iPod/iPhone.

Please visit the JVC Support Site for further information including firmware update.

Rear View Camera Ready

\*iPhone only

5-Band Parametric EQ

Steering Remote Ready

Remote Control Ready

**DAB+/DMB-Audio**

KW-V215DBT offers a built-in DAB tuner. Enjoy digital radio broadcasts from DAB+/DMB-Audio stations with the included aerial.

**Seamless Blending**

Normally, DAB is delayed by a few seconds compared to the FM broadcast. The unit will delay the FM in order to provide seamless switching between DAB and FM.

**Monitor Touch Control**

Just touch and move your finger over the screen for various operations corresponding to your finger movements. Intuitive control provides safer operation for in-car entertainment.

**High Current 1.5A Charging**

Rapidly charge your Android smartphone using the USB port, with up to a maximum of 1.5A.

**Multilingual Display (17 Languages)**

JVC Multimedia Receivers feature a Multilingual Display selectable in English, Spanish, French, German, Italian, Dutch, Russian, Portuguese, Simplified Chinese, Traditional Chinese, Thai, Turkish, Arabic, Persian, Hebrew, Malay, and Indonesian.

# Sound Optimisation

From advanced technologies that enable playback of premium High-Resolution Audio sources, to the vast array of sound adjustment functions to fine-tune and customise the acoustics exactly the way you want — count on JVC to deliver the music to your ears.

## High-Resolution Audio Playback [KW-V820BT]

You can enjoy playback of 96kHz/24bit audio which contains about 3 times the musical information of music CDs (44.1kHz/16bit), or even 192kHz/24bit High-Resolution Audio files with their approx. 6.5 times data volume. With high sound quality approaching the original master recording itself, you will experience the presence and ambience of a tune the way CD simply cannot.

## K2 Technology for Enhanced Digital Sound Quality [KW-V820BT/V320BT/V220BT]

K2 is a JVCKENWOOD's original technology that reproduces the original master sound by expanding the bit rate and frequency range. K2 is compatible with all sources including CD. For example, K2 will expand the digital data of the audio CD recorded at 44.1kHz/16 bit to 48 kHz/24 bit, and recreate the high-frequency range above 20kHz that is cut during the CD formatting.

## Time Alignment [KW-V820BT/V320BT/V220BT]

By selecting the speaker type and the distance to the centre of the listening position, the head unit will automatically adjust the timing of the sound output from each of the speakers so that the sound from each of the speakers will arrive exactly at the same time to the listening position.

## Sound Lift [KW-V820BT/V320BT/V220BT]

Virtually manipulate the height of the speakers by adjusting the sound frequencies.

## Sound Response [KW-V820BT/V320BT/V220BT]

This function boosts the low frequencies which can be lost during compression to MP3, WMA or AAC.

LEVEL 3

LEVEL 2

LEVEL 1

OFF

## Space Enhancement [KW-V820BT/V320BT/V220BT]

Space Enhancement is a virtual surround technology using 2 speakers. Just select the vehicle size, and the head unit automatically adjusts the sound effectively.

LARGE

MEDIUM

SMALL

OFF

## Volume Link EQ [KW-V820BT/V320BT/V220BT]

Volume Link EQ boosts specific frequencies in the audio signal to compensate for the impact of road noise. It boosts frequencies in the music that are affected by road noise.

## 13-Band Equaliser [KW-V820BT/V320BT/V220BT]

Use the 13-Band Equaliser to manually adjust the sound to your taste.

## DAB+/DMB-Audio [KD-DB97BT/DB67, KW-DB92BT]

Built-in DAB tuner lets you enjoy digital radio broadcast from DAB+/DMB-Audio stations with the included aerial.

## Android™ Music Playback via USB (AUTO MODE/AUDIO MODE)

Simply connect your Android smartphone or tablet to the receiver via USB and enjoy a totally “plug and play” music playback solution. The Android Open Accessory Protocol (AOA2) is supported so absolutely no preparation or set-up is necessary – just plug it in and it's ready to play audio files stored on your Android device in what's called “AUDIO MODE”. Or, by installing the free JVC Music Play app available on Google Play, you'll be able to access “AUTO MODE” for added functionality including Folder Up & Down, and Search Artist/Album/Song.

## iPhone®/Android™ Bluetooth Automatic Pairing [Bluetooth Models]

Just connect your iPhone or Android device\* via USB and the automatic Bluetooth pairing function will work to complete the pairing. No complicated manual procedure to worry about.

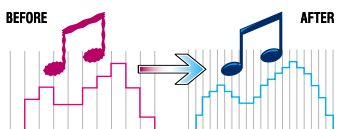

\*JVC Music Play application is required.

## Versatile Sound Adjustment Features

**K2 Technology**

K2 reproduces the original master sound by expanding the bit rate and frequency range. K2 is compatible with all sources, including CD where 48kHz/16 bit recordings are expanded to 96 kHz/24 bit to restore the high-frequency range that is cut during the CD formatting.

**Sound Lift**  
Virtually manipulate the height of the speakers by adjusting the sound frequencies.

**Sound Response**  
Boosts the low frequencies which can be lost during compression to MP3 or WMA.

## Seamless Blending [KD-DB97BT/DB67, KW-DB92BT]

Normally, DAB is delayed few seconds compared to the FM broadcasting. The unit will delay the FM in order for seamless switch between DAB-FM.

## 2 Phones Full-Time Connection [Bluetooth Models]

You can connect two phones full time via Bluetooth, with secure and simple pairing. Calls to either phone can be received by a push of a key on the head unit.

## Bluetooth AVRCP1.5 for Versatile Song Selection

In addition to repeat and random playback of music files, you can also easily search for songs using the browsing function. Just look for and choose the song you want to hear from the folder name and song name lists.

## Bluetooth Hands-Free Profile 1.6

HPF 1.6 Wideband Speech is supported, so you can now enjoy hands-free phoning convenience together with higher voice quality and improved noise reduction.

## High Current 1.5A Charging

Rapidly charge your Android smartphone using the USB port, with up to a maximum of 1.5A.

## 3-Zone Variable-Colour Illumination

You can mix the front panel illumination using 32 colours, separated into 3 zones. 50 preset patterns are available for easy customisation.

**Space Enhancement**

A virtual surround technology using 2 speakers. Just select the vehicle size, and the head unit automatically adjusts the sound effectively.
